Art Unit: 3724

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 3 and 12, drawn to the special technical feature of the size of the span between the first blade and the guard.

Group II, claims 4 and 11, drawn to the special technical feature of the amount of exposure of the first and third blades.

Group III, claims 6-8, drawn to the special technical feature of the size of the span between the blades.

Group IV, claims 9 and 10, drawn to the special technical feature of the amount of exposure of the second blade.

Claim 1 has no special technical feature and will be examined with the elected group. If claim 1 is ultimately determined to be allowable (thus proven to have a special technical feature) in its current form, then rejoinder of claims dependent therefrom will be considered. See 37 CFR 1.475(a) and 1.476(d)

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features as set forth above.

Art Unit: 3724

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
